INTERIM REPORT
FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2026

CHARACTERISTICS OF "GEM" OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

Significant Investments, Material Acquisitions or Disposals

During FY2027 Interim, there were no significant investments held, material acquisitions or disposals of subsidiaries and affiliated companies.

Restaurant Operations

During FY2027 Interim, a total of 3,449,975 customers patronized our restaurants, an increase of 558,155 customers or 19.3% when compared to the six months ended 30 September 2025 ("**FY2026 Interim**"). The increase in the number of customers is attributable to: (1) those restaurants opened during the year ended 31 March 2026 ("**FY2026**") having a full six months of operations; and (2) new restaurants opened during FY2027 Interim. The average spending per customer ("**ASP**") decreased from HK$226.7 to HK$215.6 for FY2027 Interim compared to FY2026 Interim. The reason for the decrease in the ASP was due to the increase in revenue of the lower ASP restaurants such as the Western cuisine restaurants and the much lower ASP from our bakery business. The key operating information by cuisine are summarized as follows:

FINANCIAL REVIEW

Revenue

For FY2027 Interim, the Group recorded revenue of HK$743,799,000, representing an increase of 13.4% when compared to FY2026 Interim.

We derive our revenue from the sales of food and beverages at our restaurants in Hong Kong and the People's Republic of China ("**PRC**"). The following tables sets forth the breakdown of our revenue by cuisine during the relevant periods.

	Six Months Ended				**Changes**
	30.09.2026		30.09.2025		
	HK$'000 (unaudited)	**% of Revenue**	HK$'000 (unaudited)	% of Revenue

Others	**1,013**	**0.1%**	901	0.1%	**12.4%**
Total revenue	**743,799**	**100.0%**	655,620	100.0%	**13.4%**

When compared to FY2026 Interim, the increase in revenue is attributable to (1) those restaurants opened during FY2026 having a full six months of operations; and (2) new restaurants opened during FY2027 Interim. However, the increase has been slightly off-set by a decrease in the ASP from HK$226.7 in FY2026 Interim to HK$215.6 in FY2027 Interim. The decrease in the average spending is mainly due to the increase in the number of new restaurants which have a lower average spending than the existing restaurants, resulting in the decrease of the overall average spending per customer in FY2027 Interim.

Value for money is crucial to our success; customers need to feel they are getting their money's worth by experiencing a dining experience that matches their expectations.

Share Option Scheme

Pursuant to the SOS, the Board may, at its sole discretion, invite any director or proposed director (including an independent non-executive director) of any member of our Group, any executive director of, manager of, or other employee holding an executive, managerial, supervisory or similar position in, any member of our Group (an "**Employee**"), any proposed Employee, any full-time or part-time Employee, or a person for the time being seconded to work full-time or part-time for any member of our Group (an "**Executive**"), a consultant, business or joint venture partner, franchisee, contractor, agent or representative of any member of our Group, or any advisory, consultancy, professional or other services to any member of our Group, or a close associate (as defined under the GEM Listing Rules) of any of the foregoing persons (together, the "**Eligible Persons**" and each an "**Eligible Person**").

The purpose of the SOS is to motivate Eligible Persons to optimise their future contributions to our Group and/or to reward them for their past contributions, to attract and retain or otherwise maintain on-going relationships with Eligible Persons who are significant to and/or whose contributions are or will be beneficial to the performance, growth or success of our Group, and additionally in the case of Executives, to enable our Group to attract and retain individuals with experience and ability and/or to reward them for their past contributions.

The exercise price of the share option will be determined at the higher of the average of closing prices of the Shares on the Stock Exchange on the five trading days immediately preceding the date of grant of the option, the closing price of the Shares on the Stock Exchange on the date of grant or the nominal value of the Shares.

The SOS will remain in force for a period of 10 years commencing on 17 January 2018.

The share options under the SOS are exercisable at any time for a period to be determined by the Directors, which shall not be more than 10 years after the date of grant.

The total number of Shares in respect of which options may be granted under the SOS is not permitted to exceed 10% of the Shares in issue on the Listing Date without prior approval from the Shareholders. Each grant of share options to a Director, chief executive or substantial Shareholder of our Company or any of their respective associates under the SOS shall be approved by Independent Non-executive Directors of our Company. Where any grant of share options to a substantial Shareholder or an Independent Non-executive Director of our Company or any of their respective associates would result in the securities issued and to be issued upon exercise of all share options already granted and which may be granted (including share options exercised, cancelled and outstanding) to such person in the 12-month period up to and including the date of such grant:

(a) representing in aggregate over 0.1% of the Shares in issue; and

The Company shall send a circular to our Shareholders containing the information required under Rule 23.04 of the GEM Listing Rules. The relevant Eligible Person, his associates and all core connected persons of our Company shall abstain from voting at such general meeting. Any vote taken at the meeting to approve the grant of such share options must be taken on a poll.

TO THE BOARD OF DIRECTORS OF TASTE • GOURMET GROUP LIMITED

(incorporated in the Cayman Islands with limited liability)

Introduction

We have reviewed the condensed consolidated financial statements of Taste • Gourmet Group Limited (the "**Company**") and its subsidiaries (collectively referred to as the "**Group**") set out on pages 21 to 38, which comprise the condensed consolidated statement of financial position as of 30 September 2026 and the related condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six-month period then ended, and notes to the condensed consolidated financial statements. The Rules Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" ("**HKAS 34**") as issued by the Hong Kong Institute of Certified Public Accountants (the "**HKICPA**"). The directors of the Company are responsible for the preparation and presentation of these condensed consolidated financial statements in accordance with HKAS 34. Our responsibility is to express a conclusion on these condensed consolidated financial statements based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" ("**HKSRE 2410**") as issued by the HKICPA. A review of these condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated financial statements are not prepared, in all material respects, in accordance with HKAS 34.

2. ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values.

Other than the application of amendments to HKFRS Accounting Standards, the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 September 2026 are the same as those presented in the Group's annual financial statements for the year ended 31 March 2026.

Application of amendments to HKFRS Accounting Standards

In the current interim period, the Group has applied the following amendments to HKFRS Accounting Standards as issued by the HKICPA, for the first time, which are mandatorily effective for the annual period beginning on 1 April 2026 for the preparation of the Group's condensed consolidated financial statements.

Amendments to HKFRS 9 and HKFRS 7	Amendments to the Classification and Measurement of Financial Instruments
Amendments to HKFRS 9 and HKFRS 7	Contracts Referencing Nature-dependent Electricity

14. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Fair value measurement and valuation processes

In estimating the fair value of an asset, the Group uses market-observable data to the extent it is available. For instruments with significant unobservable inputs under Level 3, the Group performed discounted cash flow to derive the present value of the financial asset. The management of the Group reports the findings to the directors of the Company every half year to explain the cause of fluctuations in the fair value of the asset.

The following table gives information about how the fair value of this financial asset is determined (in particular, the valuation technique(s) and inputs used), as well as the level of the fair value hierarchy into which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.

- Level 1 fair value measurements are based on quoted prices (unadjusted) in active market for identical assets or liabilities;
- Level 2 fair value measurements are based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair value measurement of the Group's financial asset that is measured at fair value on a recurring basis

Financial asset at FVTPL	**2,004**	1,970	Level 3	With reference to the adjusted cash value provided by counterparty which represents the premium paid to the polices adjusted by net yield with reference to the expected return rate of 4.4% (31 March 2026: 4.4%)

14. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (CONTINUED)

Fair value measurement of the Group's financial asset that is measured at fair value on a recurring basis (Continued)

Note: The significant unobservable input is expected return rate and assuming other inputs were held constant, if the expected return rate increases, the fair value of the policies increases and vice versa. In the opinion of the directors of the Company, the change of expected return rate of the policies is insignificant based on historical record and no sensitivity is prepared.

There is no transfer between Level 1, 2 and 3 for both periods.
