Its ultimate controlling parties are Mr. Wong Ngai Shan ("**Mr. Wong**") and Ms. Chan Wai Chun ("**Ms. Chan**") who are also the executive Directors.

The Company is an investment holding company and the principal activities of its subsidiaries are operating restaurants in Hong Kong.

The Historical Financial Information is presented in Hong Kong dollars ("**HK\$**"), which is the same as the functional currency of the Company and its subsidiaries and all values are rounded to the nearest thousands (HK\$'000) except when otherwise indicated.

The unaudited condensed consolidated financial statements for the nine months ended 31 December 2020 have been prepared in accordance with the accounting principles generally accepted in Hong Kong and comply with Hong Kong Financial Reporting Standards (HKFRS) issued by the Hong Kong Institute of Certified Public Accountants (HKICPA) and the applicable disclosure provisions of Chapter 18 of the GEM Listing Rules.

Other than changes in accounting policies resulting from application of new Hong Kong HKFRSs, the accounting policies and methods of computation used in the preparation of the unaudited condensed consolidated financial statements for the three months ended 31 December 2020 are consistent with those followed in the preparation of the Group's audited consolidated financial statements for the year ended 31 March 2020.

The unaudited condensed consolidated financial statements for the nine months ended 31 December 2020 have been prepared on the historical cost basis.

The condensed consolidated financial statements have not been audited by the Company's auditors, but have been reviewed by the audit committee of the Company.

Application of new and amendments to HKFRSs

In the current period, the Group has applied, for the first time, the following new and amendments to HKFRSs issued by the HKICPA which are mandatory effective for the annual period beginning on or after 1 April 2020 for the preparation of the Group's condensed consolidated financial statements:

Amendment to HKFRS 16	COVID-19 Related Rent Concessions
Amendments to HKFRS 3	Definition of Business
Amendments to HKAS 1 and HKAS 8	Definition of Material
Amendments to HKAS 9, HKAS 39 and HKFRS 7	Interest Rate Benchmark Reform

The new and amendments to HKFRSs have been applied in accordance with the relevant transition provisions in the respective standards and amendments which results in changes in accounting policies, amount reported and/or disclosures.

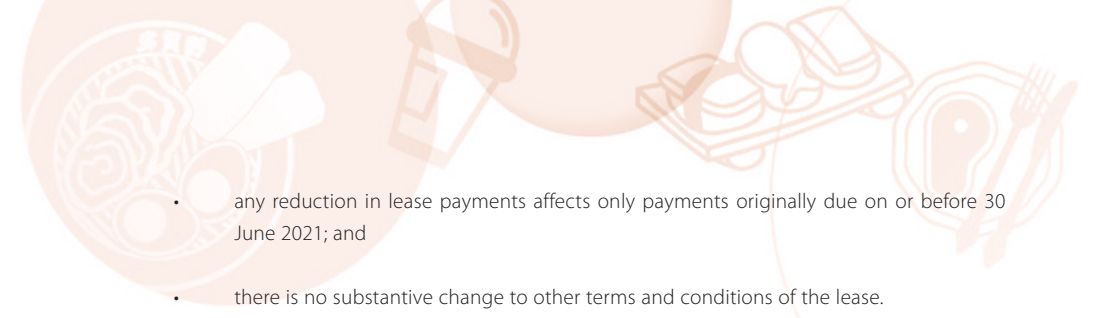

Except as described below, the application of the new and amendments to HKFRSs in the current period has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Amendment to HKFRS 16 Covid-19-Related Rent Concessions (“HKFRS16 Amendment”)

The amendment was issued in June 2020 and is effective for annual reporting periods beginning on or after 1 June 2020. Earlier application is permitted, including interim or annual financial statements not authorised for issue as at 4 June 2020, the date of the amendment is issued.

The amendment introduces a new practical expedient for lessees to elect not to assess whether the Novel Coronavirus or Novel Coronavirus Pneumonia (2019-nCoV) pandemic (“**COVID-19**”) related rent concessions is a lease modification. The practical expedient only applies to rent concessions occurring as a direct consequence of the Covid-19 that meets all of the following conditions:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;

- 
- any reduction in lease payments affects only payments originally due on or before 30 June 2021; and
 - there is no substantive change to other terms and conditions of the lease.

A lease applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 if the changes were not lease modifications. Forgiveness or waiver of lease payments are accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amounts forgiven or waived with a corresponding adjustment recognised in the profit or loss in the period in which the event occurs.

The application of the amendment is expected to have impact on the financial positions and performance of the Group if the Group would elect to early apply the amendment for the Group's annual period beginning on 1 April 2020.

Amendments to HKAS 1 and HKAS 8 Definition of Material

The amendments provide refinements to the definition of material by including additional guidance and explanations in making materiality judgments. In particular, the amendments:

- include the concept of "obscuring" material information in which the effect is similar to omitting or misstating the information;
- replace threshold for materiality influencing users from "could influence" to "could reasonably be expected to influence"; and
- include the use of the phrase "primary users" rather than simply referring to "users" which was considered too broad when deciding what information to disclose in the financial statements.

The amendments also align the definition across all HKFRSs and will be mandatorily effective for the Group's annual period beginning on 1 April 2020. The application of the amendments is not expected to have significant impact on the financial positions and performance of the Group but may affect the presentation and disclosures in the consolidated financial statements.

Impact of COVID-19 on the Number of Customers

In order to control the spread of COVID-19 in Hong Kong, the Hong Kong Government implemented certain social distancing measures for restaurant operations (the “**HK Government Social Distancing Measures**”) which includes (a) a minimum of 1.5 metres distance or some form of partition which serves as effective buffer between tables; (b) a limit on the number of customers in the restaurant as well as at each table; (c) a person must wear a mask at catering premises except when consuming food or drink; (d) body temperature screening on a person must be conducted before the person is allowed to enter the catering premises; and (e) hand sanitisers must be provided at catering premises.

These measures were relaxed in May 2020, however, as there was a spike of COVID-19 cases in July 2020, the Hong Kong Government announced further measures to prevent the infection and spreading of COVID-19:

- From 15 July 2020 onwards for an initial period of seven days and was further extended by subsequent notices until 28 July 2020. Dining-in was restricted to no more than four persons. Further, during the aforementioned seven-day period, restaurants were prohibited from providing dine-in services from 6:00 p.m. to 4:59 a.m. of the subsequent day and may only offer takeaway services and deliveries to customers.
- From 29 July 2020, onwards for an initial period of seven days until 4 August 2020, restaurants were prohibited from providing dine-in services at all times during the aforementioned seven-day period. However, on 31 July 2020, the Hong Kong Government relaxed the measures and restaurants were allowed to provide daytime dine-in services from 5:00 a.m. to 5:59 p.m. and no more than two person may be seated together at one table. On 3 August 2020, the Hong Kong Government extended measures up until 27 August 2020.
- From 28 August 2020, dine-in services was extended 8:59 p.m. and from 4 September 2020, further extended to 9:59 p.m. From 11 September 2020, the maximum number of customers per table was relaxed to four. From 18 September 2020, dine-in services was extended 11:59 p.m. From 30 October 2020, dine-in services was extended 1:59 a.m. and the maximum number of customers per table was relaxed to six.
- However due to sudden spike in confirmed COVID-19 cases of which the source of transmission in a significant portion of the confirmed COVID-19 cases could not be identified, the Hong Kong Government imposed tightened social distancing measures on 26 November 2020 where dine-in services were allowed until 11:59 p.m. and the maximum number of customers per table reduced to four. On 2 December 2020, social distancing measures were further tightened where dine-in services were allowed until 9:59 p.m. and the maximum number of customers per table reduced to two and subsequently banned dine-in services after 6:00 p.m. on 10 December 2020. The current social distancing measures are still in place as at the date of this report.

The impact of the HK Government Social Distancing Measures had a significant impact on the number of customers in July, August and December 2020.

Change in the Use of Proceeds

On 18 May 2020, the Company reallocated the unutilized proceeds assigned to *“Enhance our brand recognition through raising our service levels on a continual basis, the increase of marketing initiatives and renovation of our restaurants”* as disclosed in the prospectus of the Company dated 29 December 2017 of approximately HK\$5.0 million to finance the rental deposits and the renovation costs of our first Wasyokuya Yamaichi restaurant.

Due to the protests which escalated from June 2019 and COVID-19, landlords are less demanding on the renovation or upgrading of existing restaurants, and as a result, the Board believes that the unutilised proceeds will be better used by deploying the funds towards generating additional revenue which is in the best interest of the Company and its shareholders as a whole.

For details of the change in the use of proceeds, please refer to the announcement issued by the Company dated 18 May 2020.

Placing of existing Shares and top-up subscription for new Shares under general mandate

On 3 November 2020, the Company, IKEAB Limited and Kingsway Financial Services Group Limited (the **“Placing Agent”**) entered into a placing and subscription agreement (the **“Placing and Subscription Agreement”**), pursuant to which (i) IKEAB Limited has agreed to appoint the Placing Agent, and the Placing Agent has agreed on a several basis, to act as agent for the purpose of procuring, the placees to purchase, on a best effort basis, 7,200,000 placing Shares (the **“Placing Shares”**) at the placing price (the **“Placing Price”**) of HK\$1.33 per Share (the **“Placing”**); and (ii) IKEAB Limited has agreed to subscribe for, and the Company has agreed to issue to IKEAB Limited, 7,200,000 subscription Shares (the **“Subscription Shares”**) at the subscription price of HK\$1.33 per Share (being the same as the Placing Price) (the **“Subscription”**). The Directors consider that the Placing and the Subscription (the **“Top-up Placing”**) will strengthen the capital base of the Company.

On 3 November 2020, the Placing Shares was successfully placed at the Placing Price by the Placing Agents to not fewer than six placees who and whose ultimate beneficial owners are third parties independent of the Company and its connected persons, pursuant to the terms and conditions of the Placing and Subscription Agreement. As all the conditions of the Subscription have been fulfilled, the Company allotted and issued 7,200,000 Subscription Shares to IKEAB Limited at HK\$1.33 per Subscription Share on 10 November 2020. The Subscription Shares represent approximately 1.90% of the then issued share capital of the Company as at 10 November 2020.

The Placing Price represented:

1. a discount of approximately 4.32% to the closing price of HK\$1.39 per Share as quoted on the Stock Exchange on 3 November 2020, being the date of the Placing and Subscription Agreement; and
2. a discount of approximately 5.14% to the average closing price of approximately HK\$1.402 per Share as quoted on the Stock Exchange for the five consecutive trading days prior to the date of the Placing and Subscription Agreement.

The gross proceeds from the Subscription were approximately HK\$9,576,000 and the net proceeds (after deducting all applicable costs and expenses, including commission and levies) were approximately HK\$9,326,000. On such basis, the net price per Subscription Share was approximately HK\$1.30.

The Board intends to use the net proceeds for general corporate purposes and to fund the expansion of the restaurant business, including capitalising on revenue opportunities in the PRC. The strengthened financial position following the Placing and Subscription will significantly enhance the likelihood of the Company to capitalise on these opportunities. The Board expects the net proceeds will be utilised during the next twelve months.

The expected timeline for utilising the net proceeds is based on the best estimation of the future market conditions made by the Group. It will be subject to change based on the current and future development of market conditions.

For further details, please refer to the announcements of the Company dated 3 November 2020 and 10 November 2020.

FINANCIAL REVIEW

Revenue

For the nine months ended 31 December 2020, the Group recorded revenue of HK\$282,561,000, representing a decrease of 4.3% when compared to the same period in 2019.

We derive our revenue from the sales of food and beverages at our restaurants in Hong Kong. The following tables sets forth the breakdown of our revenue by cuisine and the number of restaurants in operations by cuisine during the relevant periods.

	Nine months ended				Changes
	31.12.2020		31.12.2019

Total revenue	282,561	100.0%	295,120	100.0%	(4.3%)

The increase in revenue is attributable to the opening of: (1) Nabe Urawa at the Citygate in Tung Chung O in April 2020; (2) Nabe Urawa at the Tuen Mun Town Plaza in Tuen Mun in June 2020; (3) Wasyokuya Yamaichi at The LOHAS in Tseung Kwan O in August 2020; (4) Nabe Urawa at The LOHAS in Tseung Kwan O in November 2020; (5) Dab-pa at the New Town Plaza in Shatin in December 2020; and (6) our first restaurant in Shanghai, Shi Li Xianghui at Plaza 66 in December 2020 and those restaurants that opened during the year ended 31 March 2020 but without full year of operations during the year ended 31 March 2020: (1) Nabe Urawa at the Park Central in Tseung Kwan O (opened in April 2019); (2) Rakuraku Ramen Restaurant at the MegaBox in Kowloon Bay (opened in April 2019); (3) Rakuraku Ramen restaurant at the Kornhill Plaza in Taikoo (opened in May 2019); (4) Takano Ramen Restaurant at the K11 MUSEA in Tsim Sha Tsui (opened in August 2019); (5) Nabe Urawa at the Nina Mall in Tsuen Wan (opened in November 2019); (6) Dab-Pa Restaurant at the Citygate in Tung Chung (opened in December 2019); and (7) Tirpse at the K11 MUSEA in Tsim Sha Tsui (opened in December 2019).

The impact of the HK Government Social Distancing Measures on our monthly revenue, based on the June 2020 revenue as the baseline, is as follows:

Impact of COVID-19 on Revenue

	FY2020		Baseline				FY2021						
	Full Year	Excluding		June 2020	April 2020	May 2020	June 2020	July 2020	August 2020	September 2020	October 2020	November 2020	December 2020
		Feb & Mar	2020										
		2020	2020										
Average revenue per restaurant per day	90%	99%	100%	59%	88%	100%	60%	45%	92%	97%	90%	54%	

We used June 2020 as the baseline as all social distancing measures for restaurant operations were lifted. August 2020 recorded the lowest revenue due to the stringent restrictions on dine-ins, however as the restrictions were relaxed, our revenue rebounded significant in September 2020. In December 2020, the implementation of the strict social distancing measures has resulted in a significant decrease in revenue.

Subsidies from the Hong Kong Government

For the second and third phase of the Anti-epidemic Fund, we received subsidy from the Hong Kong Government of approximately HK\$21.2 million and HK\$3.4 million, respectively, which have been booked as other income in the consolidated income. We expect to receive a further subsidy of approximately HK\$7.2 million in January and February 2021 in relation to the fourth phase of the Anti-epidemic Fund.

Rental Concessions

During the nine months ended 31 December 2020, we received approximately HK\$6.2 million in rental concessions from our landlords which is booked as other income following the adoption of HKFRS16 Amendment.

Major Cost Components

	31.12.2020		31.12.2019		
	HK\$'000 (unaudited)	% of Revenue	HK\$'000 (unaudited)	% of Revenue	
Raw materials and consumables used	85,894	30.4%	80,624	27.3%	6.5%
Staff costs	77,503	27.4%	85,196	28.9%	-9.0%
Depreciation of property, plant and equipment	13,153	4.7%	9,239	3.1%	42.4%
Depreciation of ROU Assets	55,151	19.5%	45,411	15.4%	21.4%
Property rental and related expenses	17,129	6.1%	12,619	4.3%	35.7%
Utilities and cleaning expenses	9,597	3.4%	9,702	3.3%	-1.1%
Other expenses	17,598	6.2%	15,688	5.3%	12.2%
Listing expenses	15,750	5.6%	-	0.0%	100.0%
Finance Costs	4,882	1.7%	3,870	1.3%	26.1%

Raw materials and consumables used increased for the nine months ended 31 December 2020 primarily due to the higher number of operations when compared to the same period last year. However, the increase has been set-off by the social distancing measures imposed by the Hong Kong Government. As a percentage of revenue, raw material and consumables used increased by 3.1% to 30.4% primarily due to: (i) the opening of new Nabe Urawa restaurants as they have higher food costs compared to our other restaurants; and (ii) the offering of more expensive ingredients to attract customers in order to mitigate the social distancing measures imposed by the Hong Kong Government, especially at our Nabe Urawa restaurants.

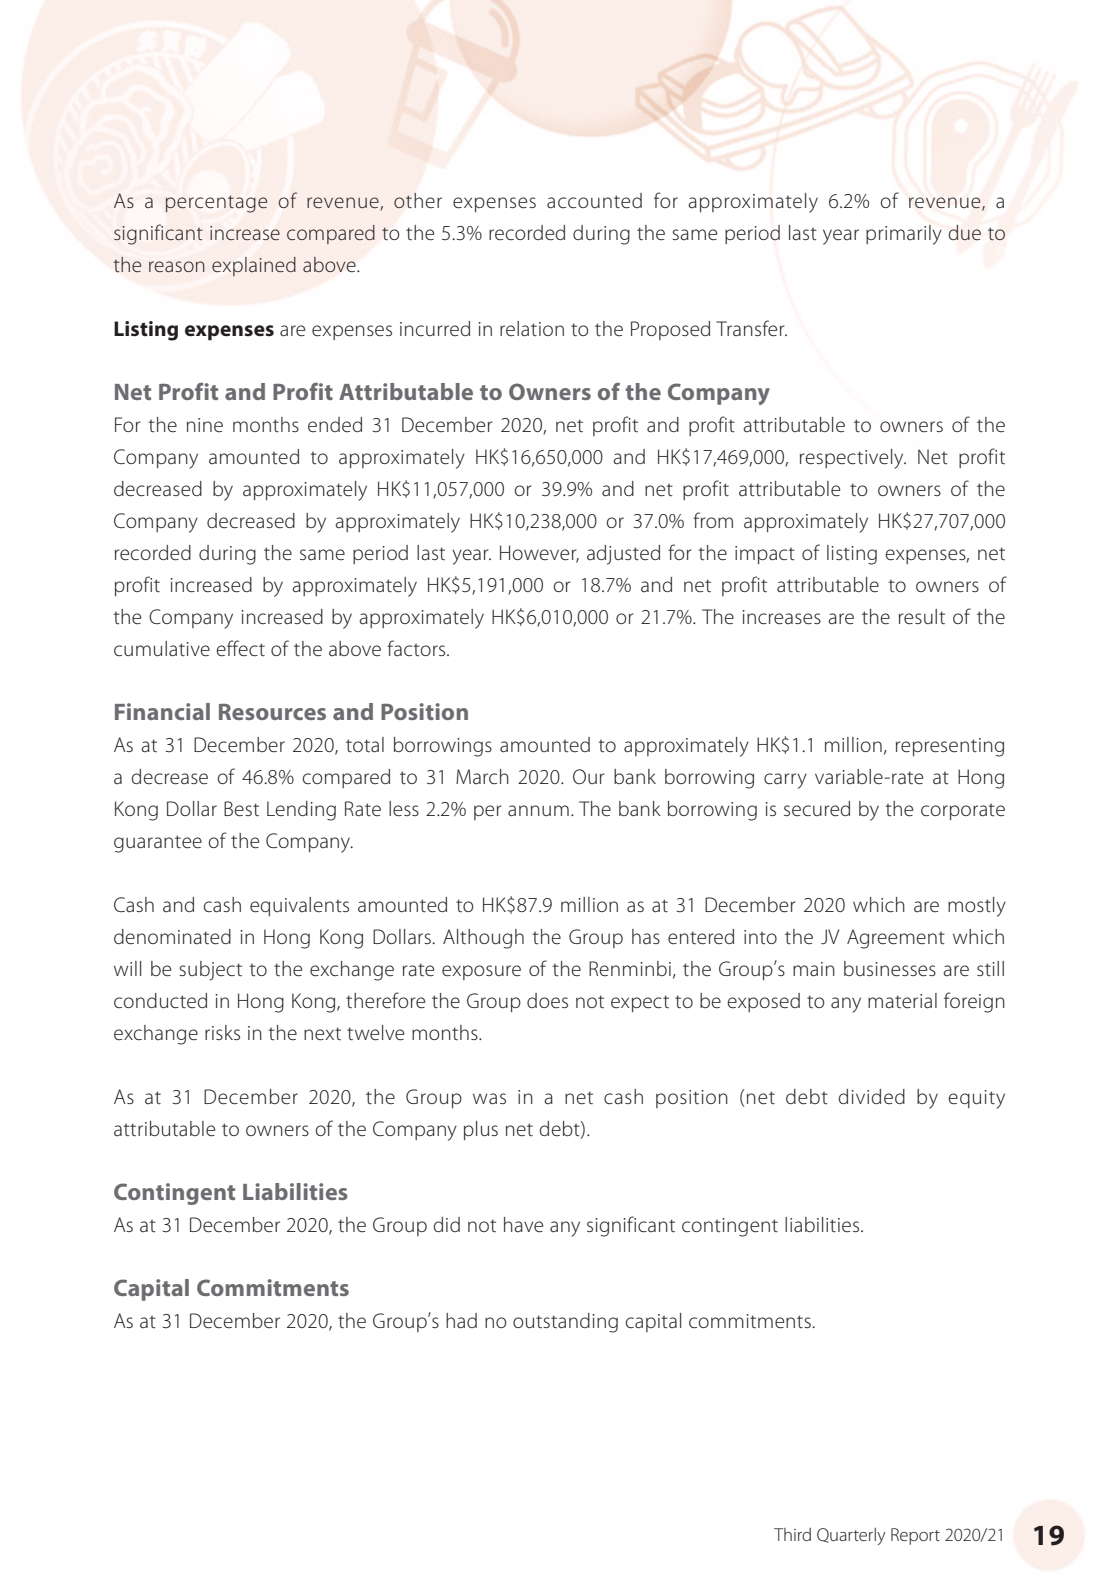

Staff costs decreased for the nine months ended 31 December 2020 compared to the same period last year was primarily due to the decrease in revenue as the result of the social distancing measures imposed by the Hong Kong Government. As a percentage of revenue, staff costs decreased from 28.9% to 27.4% when compared to the same period in 2019 is primarily due to: (i) the increase in the number of restaurants that require fewer staff such as our Nabe Urawa restaurants and Rakuraku Ramen restaurants; (ii) taking of no-pay leave by our staff; (iii) the management of staff roster during the strict social distancing restriction period such as operating one shift by closing the restaurant one hour early at 5:00 p.m. when dine-ins were forbidden after 6:00 p.m.; and (iv) the benefits of scale economy on head office costs as more new restaurants are opened. With the increasing difficulty in hiring operational staff, the shift in operations that require fewer staff is essential in controlling staff costs as well as relieving pressure on our operational staff.

Property rental and related expenses increased for the nine months ended 31 December 2020 when compared to the same period last year. The increase was primarily due to more restaurants were in operations during the nine months ended 31 December 2020. As a percentage of revenue, property rental and related expenses increased from 4.3% to 6.1% was primarily due to decrease in revenue from the impact of COVID-19 as property rental and related expenses now only includes expenses such as turnover rents, building management fees and rates, which are mostly fixed expenses in nature.

Depreciation of property, plant and equipment and Depreciation of ROU Assets increased by approximately 42.4% and approximately 21.4%, respectively when compared to the same period last year, primarily due to more restaurants were in operations during the nine months ended 31 December 2020. As a percentage of revenue, depreciation of property, plant and equipment and depreciation of ROU Assets increased from 3.1% to 4.7% and from 15.4% to 19.5% was primarily due to decrease in revenue from the impact of COVID-19 as these assets are depreciated on a straight-line basis.

Other expenses include items such as advertising expenses, credit card charges, delivery fees, entertainment expenses, insurance, printing and stationery, medical expenses and repairs and maintenance. Other expenses amounted to approximately HK\$17,598,000, representing an increase of approximately HK\$1,910,000 or 12.2% when compared to the same period last year. The increase was primarily due to: (1) increase in air-conditioning expenses as such expenses are not included as part of building management fees for some of our new restaurants; (2) increase in delivery charges; (3) royalty fees in relation to the Tirpse franchise; and (4) the establishment costs in relation to the setting up of our operations in Shanghai. However, the increase was off-set by a decrease in entertainment and credit card charges due to the decrease in revenue from the impact of COVID-19.

As a percentage of revenue, other expenses accounted for approximately 6.2% of revenue, a significant increase compared to the 5.3% recorded during the same period last year primarily due to the reason explained above.

Listing expenses are expenses incurred in relation to the Proposed Transfer.

Net Profit and Profit Attributable to Owners of the Company

However, adjusted for the impact of listing expenses, net profit increased by approximately HK\$5,191,000 or 18.7% and net profit attributable to owners of the Company increased by approximately HK\$6,010,000 or 21.7%. The increases are the result of the cumulative effect of the above factors.

Future Prospects

The current social distancing measures imposed by the Hong Kong Government will have a negative impact on our revenue for the months of January and February 2021, however, with our continuous effort in controlling costs, we will be able to get through these difficult times. We will continue to improve of the quality of our food together with the highest standard of services. Value-for-money is the key to our success, customers need to feel that they are getting their money's worth by providing a dining experience that matches their expectation, it is therefore imperative for us to deliver this philosophy during these difficult times.

As for our PRC expansion, we will be able to leverage on the strength of the joint venture partner in supply of fresh food ingredients, local knowledge of the PRC as well as nationwide logistics network for product delivery, we believe that we will be able to replicate our successful strategy from Hong Kong by opening restaurants in high footfall traffic shopping malls and creating a value-for-money dining experience. In addition to the one restaurant in operations in Shanghai, we will be taking possession of two more leases in March 2021 with a target commencement date in May 2021.

As for our expansion, in addition to committed two new leases thus far and we will continue to discuss with shopping mall landlords for new potential locations.
