Impact of COVID-19 on the Number of Customers

In order to control the spread of COVID-19 in Hong Kong, the Hong Kong Government implemented certain social distancing measures for restaurant operations (the “**Hong Kong Government Social Distancing Measures**”) which includes (a) a minimum of 1.5 metres distance or some form of partition which serves as effective buffer between tables; (b) a limit on the number of customers in the restaurant as well as at each table; (c) a person must wear a mask at catering premises except when consuming food or drink; (d) body temperature screening on a person must be conducted before the person is allowed to enter the catering premises; and (e) hand sanitisers must be provided at catering premises.

The Hong Kong Government Social Distancing Measures that were in place during the period were as follows:

- In February 2021, the Hong Kong Government eased dine-in restrictions to allow a maximum of four per table and services extended to 9:59 p.m.

There are certain conditions for further easing such as if all restaurants staff have at least been vaccinated with one jab or if all staff have been fully vaccinated and customers have been vaccinated with one jab, however none of our restaurants were able to meet any of the conditions for further easing.

FINANCIAL REVIEW

Revenue

For FY2022 Q1, the Group recorded revenue of HK\$144,988,000, representing an increase of 47.6% when compared to the same period in 2020.

We derive our revenue from the sales of food and beverages at our restaurants in Hong Kong. The following tables sets forth the breakdown of our revenue by cuisine and the number of restaurants in operations by cuisine during the relevant periods.

	Three months ended				Changes
	30.06.2021		30.06.2020		
	HK\$'000 (unaudited)	% of Revenue	HK\$'000 (unaudited)	% of Revenue

Total revenue	144,988	100.0%	98,209	100.0%	47.6%

When compared to the same period in 2020, the increase in revenue is attributable to the opening of: (1) Yakiniku Guu at the Tai Hung Fai Centre in Tsuen Wan in May 2021; and (2) Nabe Urawa at the Raffles City Changning in Shanghai in June 2021, the increase in average spending and the change in dining habits of customers by taking dinners earlier due to the restrictive Hong Kong Government Social Distancing requiring restaurants to close at 10:00 p.m.

Impact of COVID-19 on Revenue

	FY2020	FY2021	Baseline	FY2022			FY2022 Q1

Average revenue per restaurant per day	90%	68%	100%	91%	98%	102%	97%

The average revenue per restaurant per day for FY2022 Q1 is still slightly below the baseline (June 2020, the highest month in terms of average revenue per restaurant per day during the year ended 31 March 2021). Although the average revenue per restaurant per day during the months of April and May 2021 are still slightly below the baseline, the average revenue per restaurant per day for the month is higher than the baseline even with the restrictive social distancing measures in place.

Subsidies from the Hong Kong Government

No government subsidies in relation to the Anti-epidemic Fund was received by the Group during FY2022 Q1. Subsidies received during FY2021 Q1 amounted to HK\$3.5 million.

Rental Concessions

Utilities and cleaning expenses	4,541	3.1%	3,110	3.2%	46.0%
Other expenses	8,030	5.5%	5,835	5.9%	37.6%
Listing expenses	-	0.0%	3,700	3.8%	100.0%
Finance Costs	2,176	1.5%	1,500	1.5%	45.1%

Raw materials and consumables used increased by approximately 54.0% during FY2022 Q1 when compared to FY2021 Q1 is mainly due to the opening of new restaurants as discussed under revenue above. As a percentage of revenue raw materials and consumables used increased from 29.3% to 30.5% is primarily due to: (i) the increase in the number buffet style Nabe Urawa restaurants and Yakniku Guu restaurants which have higher food costs; and (ii) impact of new restaurants opening on raw material costs due to the larger scale of operations of the Group as a whole.

Staff costs increased by approximately 56.7% during FY2022 Q1 when compared to FY2021 Q1 is mainly due to the increase in the number of key staff in order to optimize the roles within Group and unpaid leaves taken by all our staff during FY2021 Q1. As a percentage of revenue staff costs increased from 25.7% to 27.3% when compared to FY2021 Q1 is primarily the same as the reason described above.

Property rental and related expenses increased by approximately 40.1% when compared to FY2021 Q1. The increase is primarily due to more restaurants were in operations during FY2022 Q1. As a percentage of revenue, property rental and related expenses decreased from 5.4% to 5.1% is primarily due to the increase in the average revenue per restaurant per day when compared to the COVID-19 impacted revenue during FY2021 Q1 as property rental and related expenses only includes expenses such as turnover rents, building management fees and rates, which are mostly fixed expenses in nature.

Depreciation of property, plant and equipment and Depreciation of ROU Assets increased by approximately 15.5% and approximately 44.0%, respectively when compared to FY2021 Q1, which is primarily due to more restaurants were in operations during FY2021 Q1. In addition, the increase in depreciation of ROU Assets is also attributed by new leases under rent free periods that were under renovation. As a percentage of revenue, depreciation of property, plant and equipment and depreciation of ROU Assets decreased from 4.2% to 3.3% and from 14.9% to 14.5% is primarily due to the increase in the average revenue per restaurant per day when compared to the COVID-19 impacted revenue during FY2021 Q1 as these assets are depreciated on a straight-line basis. However, the increase in depreciation of ROU Assets is offset by the charging of depreciation for new leases under rent free periods that had not commenced operations.

Other expenses include items such as advertising expenses, credit card charges, delivery fees, entertainment expenses, insurance, printing and stationery, medical expenses and repairs and maintenance. Other expenses amounted to approximately HK\$8,030,000, representing an increase of approximately 37.6% when compared FY2021 Q1, primarily due to more restaurants were in operations during FY2021 Q1. As a percentage of revenue, other expenses accounted for approximately 5.5% of revenue, a slight increase compared to the 5.9% recorded during FY2021 Q1 primarily due to the increase in the average revenue per restaurant per day when compared to the COVID-19 impacted revenue during FY2021 Q1 as some expenses are fixed expenses in nature.

Listing expenses are expenses incurred in relation to the Proposed Transfer.
